How to Use Your Cards

1

Print

Print the card pages on white cardstock at 100% ("actual size"). Pages 5 and 6 are optional: blank cards for your own ideas, and card backs for double-sided printing.

2

Cut

Cut along the dashed lines. Each card is 3.5 × 3.08 inches.

3

Set up

Tuck one card into each envelope, treat bag, or a little box by the door.

4

Enjoy

Open one card each day, October 20 through 31. Swap days around to fit your week.

DOUBLE-SIDED TIP

Print one card page, then put the printed sheet back in the tray and print the card-back page on the reverse. The backs are identical, so they line up however your printer flips.
